

Recommendations on how to register in and use the *GoEco! Tracker* app

Francesca Cellina, Dominik Bucher

At the registration you
will be asked
to enter an email address

If possible, please enter
the same address you
had indicated
in the *GoEco!* online
application form

Settings	
My profile	
Language	English
Username Pinocchio_32	
Email giuseppe.marroni1980@gmail.com	
First name Giuseppe	
Last name Marroni	

We use email addresses as
codes to access *GoEco! Tracker*.
two persons cannot sign in
with the same email address

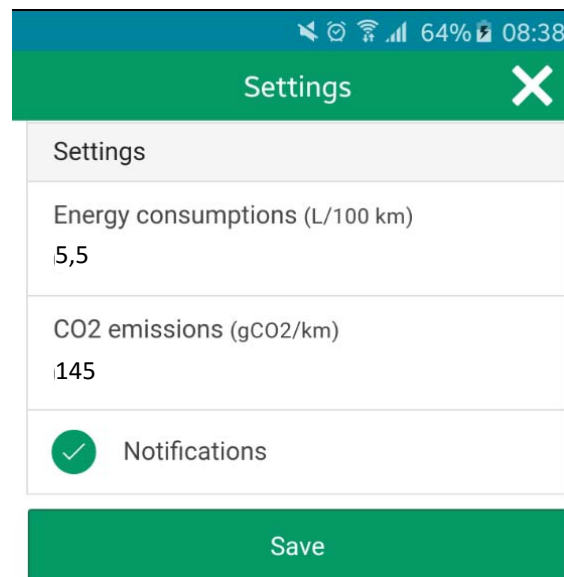

The username you enter in *GoEco! Tracker*
will be shown to the other participants

If you do not want
the community to see your name and surname,
please choose a nickname

PINOCCHIO_32

To estimate energy consumptions and CO₂ emissions we'll use average reference values.
If you prefer we use specific data for your own car, you can enter them

The screenshot shows a mobile application interface with a status bar at the top displaying signal strength, Wi-Fi, 64% battery, and the time 08:38. Below the status bar is a green header with the text "Settings" and a white close button (X). The main content area is a list of settings:

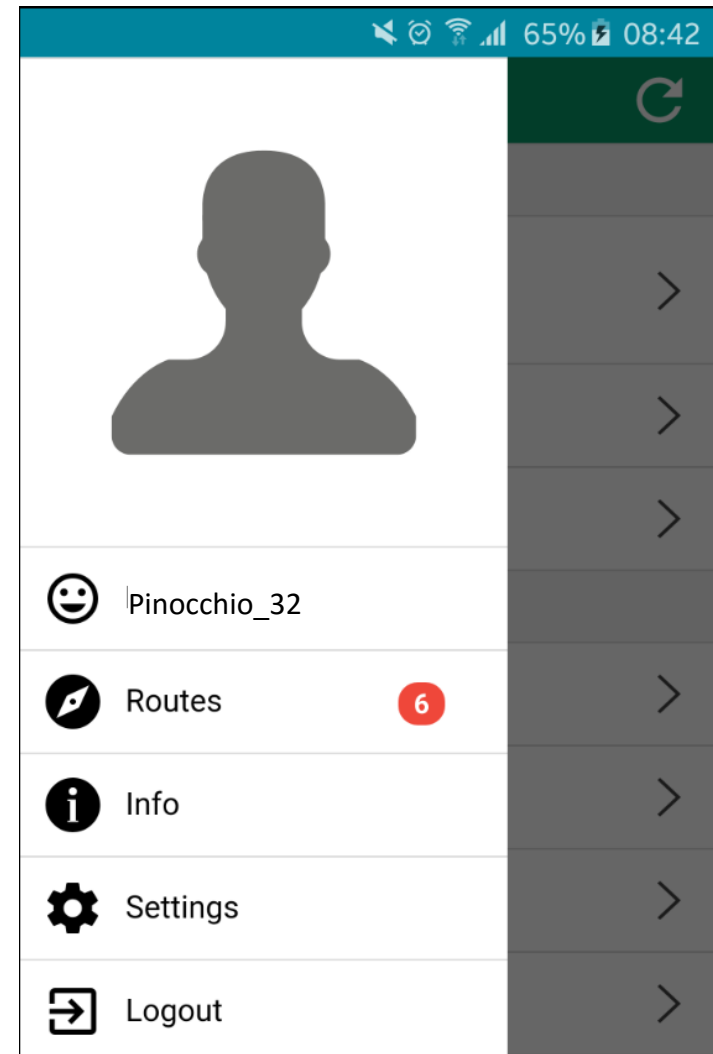

- Settings
- Energy consumptions (L/100 km)
5,5
- CO2 emissions (gCO2/km)
145
- Notifications

At the bottom of the screen is a green button labeled "Save".

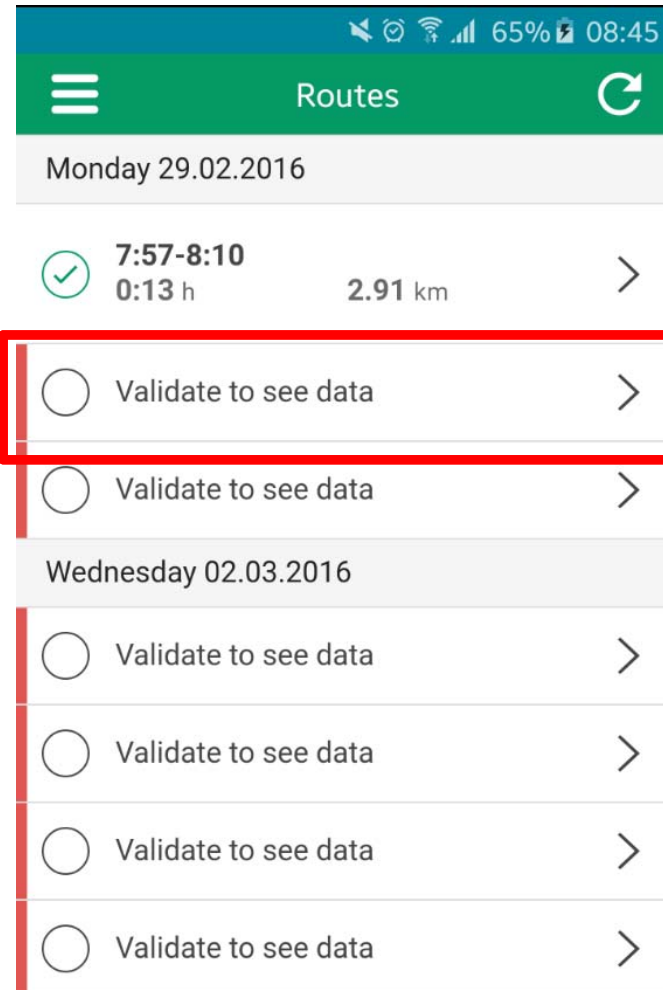

Every time *GoEco! Tracker* receives new routes, a red symbol appears

If you miss validating your routes, the next day you will receive a notification

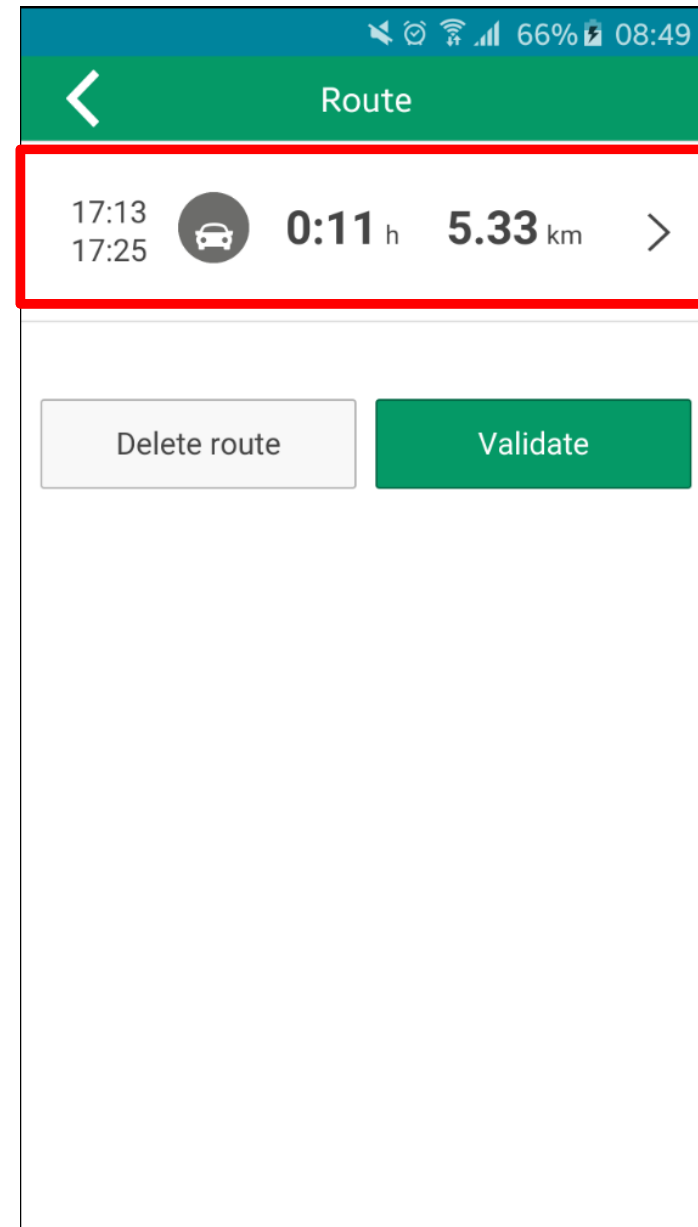

Enable notifications!

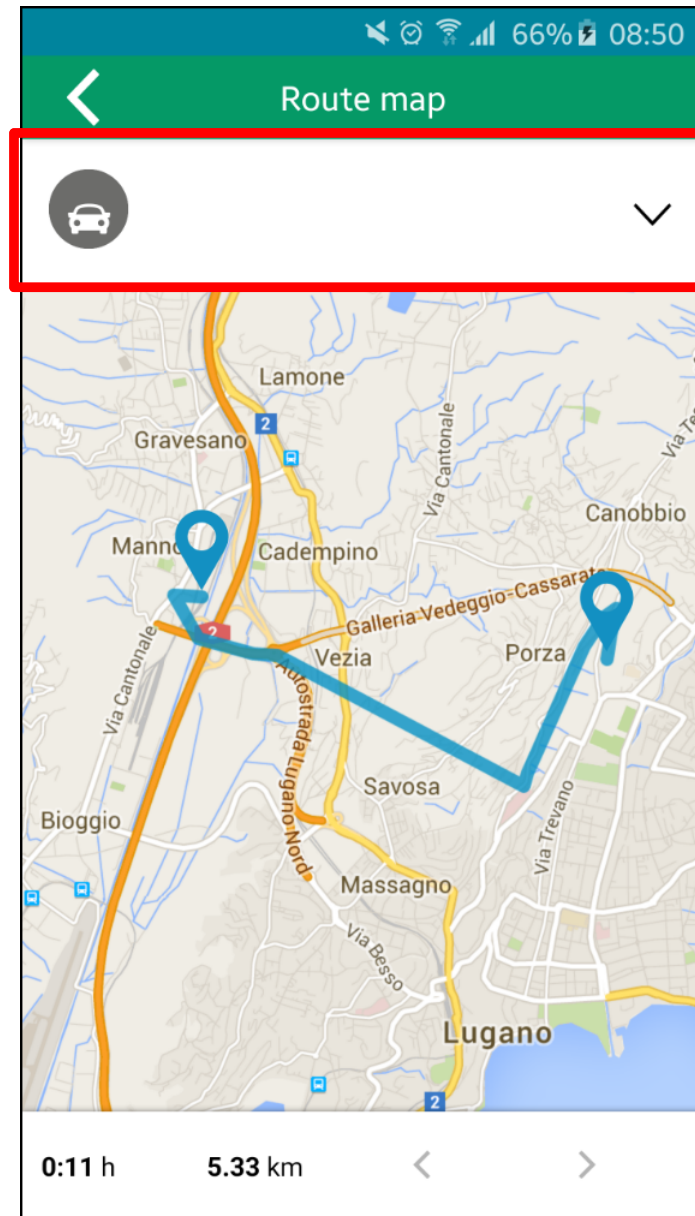

The list of routes
to be validated

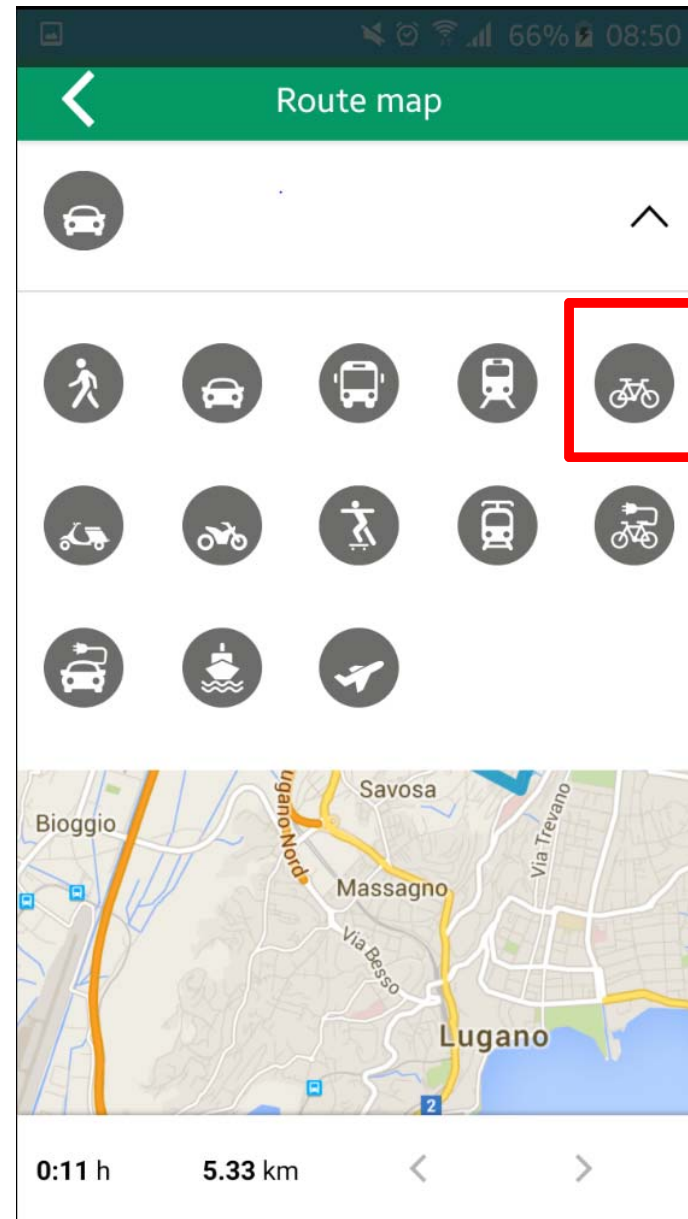

The information
regarding a specific
route

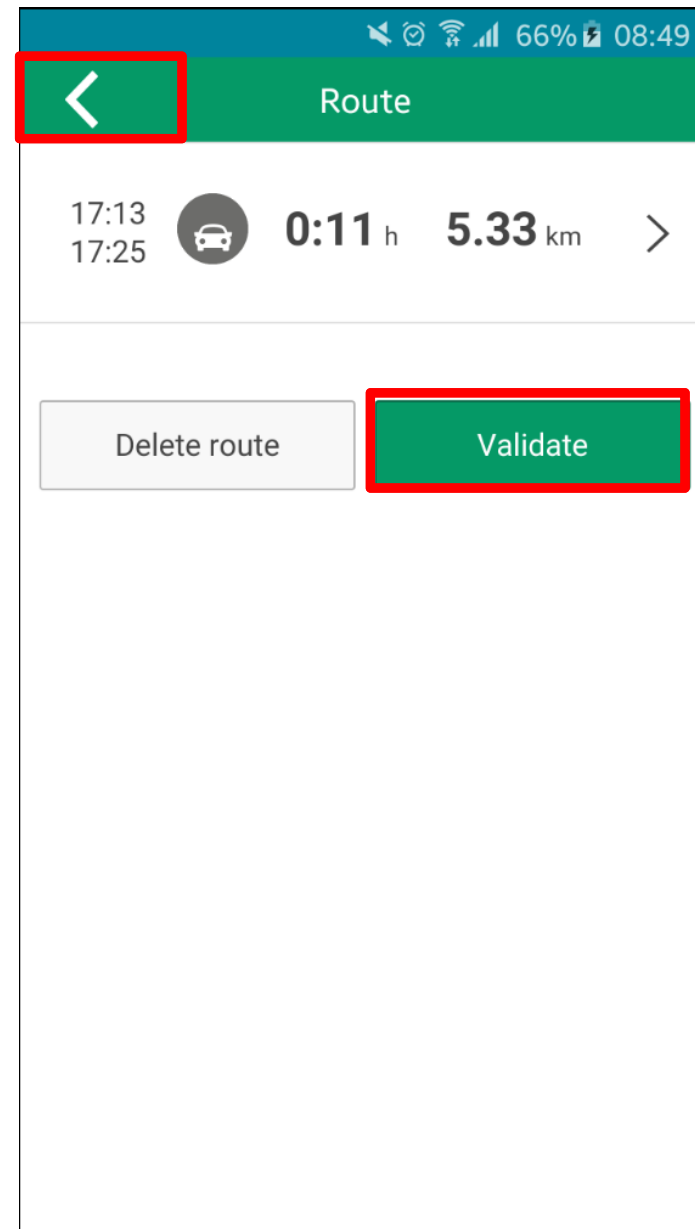

If you click on the route,
a map appears

You can modify the means of transport by clicking on the icon

Then simply validate
and return
to the list of the routes

Thank you for your attention!
